

NEXT-GEN NB-IoT Wireless Sensor

**BATTERY
POWERED**
FOR MULTI-
YEAR LIFE

Temperature, Humidity,
Movement, eCO2

NB-IoT cellular communication

Embedded SIM chip
with 10 years of airtime
included

Global Coverage

Use on any NB-IoT
cellular network

Accurate Sensors

Highly accurate
solid-state
calibration-free
sensors

Ultra Low Power

Battery powered
for 3-5 years

Applications

-  Social housing
-  Indoor monitoring
-  Mould & damp prevention
-  Empty property monitoring
-  Facilities management

Details

- ✓ 84mm x 84mm x 38mm
- ✓ Mounting plate included
- ✓ Includes battery & SIM

Ordering

- ✓ **LPRSCS-NB-THM**
Temp, Humidity, Movement
- ✓ **LPRSCS-NB-THME**
Temp, Humidity, Movement, eCO2

Why LPRSCS?

- ✓ UK designed
- ✓ Established 1985
- ✓ Wireless & sensing experts

Other Variants Available:

Legionella Sensing

Vape & PM detection

Leak & Valve Control
