

NEXT-GEN NB-IoT Wireless Sensor

For Legionella Water
Compliance Applications

**FAST
INSTALL**
In under 2
mins

NB-IoT cellular communication

Embedded SIM chip
with 10 years airtime
included

Global Coverage

Use on any NB-IoT
cellular network

Accurate Sensors

Highly accurate
calibration-free
Temperature sensors

Ultra Low Power

Battery powered
for 3-5 years

Applications

-  Water compliance
-  Remote monitoring
-  24/7 near real-time data
-  For pipes 15mm-28mm
-  Facilities management

Details

- ✓ 84mm x 84mm x 38mm
- ✓ Mounting plate included
- ✓ Includes battery & SIM

Ordering

- ✓ **LPRSCS-NB-LEGIO2**
With 2 pipe clamp temp sensors
- ✓ **LPRSCS-NB-LEGIO4**
With 4 pipe clamp temp sensors

Why LPRSCS?

- ✓ UK designed
- ✓ Established 1985
- ✓ Wireless & sensing experts

Other Variants Available:

Temp, Humidity, Movement, eCO2

Vape & PM detection

Leak & Valve Control
